§ 3. Subchapter 7 of chapter 1 of title 24 of the administrative code of the city of New York is amended by adding a new section 24-163.11 to read as follows:

§24-163.11 Trade waste vehicles. a. Definitions. When used in this section:

“Best available retrofit technology” means technology verified by the United States environmental protection agency or the California air resources board for reducing the emission of pollutants that achieves reductions in particulate matter emissions at the highest classification level for diesel emission control strategies that is applicable to a particular engine and application that has been approved for use by the commissioner.

“Heavy duty trade waste hauling vehicle” means any diesel-fuel powered vehicle with a gross weight of over sixteen thousand pounds that is owned or operated by an entity that is required to be licensed or registered by the New York city business integrity commission pursuant to section 16-505 of the code and that is operated in New York city for collection and/or removal of trade waste.

“Trade waste” shall have the same meaning as set forth in subdivision f of section 16-501 of the code.

b. Use of best available retrofit technology in heavy duty trade waste hauling vehicles. (1) Beginning January first, two thousand twenty, any heavy duty trade waste hauling vehicle shall utilize best available retrofit technology or be equipped with an engine certified to the applicable two thousand seven United States environmental protection agency standard for particulate matter as set forth in section 86.007-11 of title forty of the code of federal regulations or to any subsequent United States environmental protection agency standard for such pollutant that is at least as stringent.

(2) On or before June thirtieth, two thousand eighteen, the commissioner shall review the technology verified by the United States environmental protection agency and the California air resources board for reducing the emission of pollutants that achieves reductions in particulate matter emissions at the highest classification level for diesel emission control strategies that is applicable to a particular engine and application and shall promulgate rules setting forth the best available retrofit technology to be used by heavy duty trade waste hauling vehicles to which this section applies. Such rules shall be reviewed on a regular basis, but in no event less often than once every six months, and shall be revised, as needed.

c. Waivers; financial hardship. The chairperson of the business integrity commission may issue a waiver of the requirements of paragraph one of subdivision b of this section if the chairperson finds that the applicant for such waiver has demonstrated that compliance with such requirements would cause undue financial hardship on the applicant. An application for such waiver must be filed with the business integrity commission on or before January first, two thousand nineteen, or in the case of an applicant that applies for a license or registration with the business integrity commission pursuant to section 16-505 of the code for the first time after January first, two thousand nineteen, an application for such waiver shall be filed no later than the

date on which such license or registration application is filed with the commission. An application for renewal of an existing waiver must be filed no later than one hundred eighty days before the expiration of such waiver. Any waiver issued pursuant to this paragraph shall expire no later than two years after issuance. All waivers issued pursuant to this subdivision shall expire no later than January first, two thousand twenty-five. The provisions of paragraph one of subdivision b of this section shall not apply to an applicant that has submitted an application for a waiver in accordance with the provisions of this subdivision while such application is pending with the commission, nor for ninety days after the date of a denial of such waiver.

d. Enforcement. (1) In addition to the department, the business integrity commission shall have the authority to enforce this section and shall have the power to issue notices of violation. All notices of violation issued in accordance with this section shall be returnable to the board.

(2) Any owner or operator of a heavy duty trade waste hauling vehicle that violates any provision of this section shall be liable for a civil penalty of ten thousand dollars per vehicle that is in violation. Each notice of violation shall contain an order of the commissioner or of the chairperson of the business integrity commission directing the respondent to correct the condition constituting the violation and to file with the department or the business integrity commission electronically, or in such other manner as the department or the business integrity commission shall authorize, respectively, a certification that the condition has been corrected within sixty days from the date of the order. In any proceeding before the board, no civil penalty shall be imposed for a violation of this section if the respondent complies with the order of the commissioner or chairperson to correct and to certify correction of the violation within sixty days. In addition to such civil penalty, a separate additional penalty may be imposed of not more than five hundred dollars for each day that the violation is not corrected beyond sixty days from such order.

(3) For the purposes of this section, if the board finds that a certification of correction filed pursuant to paragraph two of this subdivision contained material false statements relating to the correction of a violation, such certification of correction shall be null and void and the penalties set forth in this section for the violation may be imposed as if such false certification had not been filed with and accepted by the department or the business integrity commission. It shall be an affirmative defense that the respondent neither knew nor should have known that such statements were false.

(4) Nothing in this section shall be construed to limit the authority of the business integrity commission to deny, suspend or revoke any license or registration in accordance with chapter one of title 16-A of the code or otherwise enforce the provisions of such chapter.

(5) The business integrity commission shall have the authority to promulgate any rules necessary to enforce the provisions of this section, including but not limited to establishing criteria for the issuance of waivers pursuant to subdivision c of this section and establishing procedures for owners and operators of heavy duty trade waste hauling vehicles to demonstrate compliance with the requirements of this section.

§ 4. This local law shall take effect immediately.
