A LOCAL LAW

To amend the administrative code of the city of New York, in relation to reporting on park and playground inspections conducted by the department of parks and recreation

Be it enacted by the Council as follows:

Section 1. Chapter 1 of title 18 of the administrative code of the city of New York is amended by adding a new section 18-158 to read as follows:

§ 18-158 Park and playground inspections. a. Definition. For the purposes of this section, the term “park feature” means a structural or landscape element of a park or other property under the jurisdiction of the department, including, but not limited to: athletic fields; benches; fences; lawns; horticultural areas; paved surfaces; play equipment; safety surfacing; sidewalks; trees; unpaved trails; and any condition related to cleanliness, such as the presence of litter, graffiti, broken glass, ice or weeds.

b. The department shall develop standards for grading park features through an inspection program conducted independently from agency maintenance staff. In determining a grade for a park feature, the standards shall consider whether the condition of any park feature is suitable for the intended state of such park feature. Upon the conclusion of an inspection, a grade of acceptable or unacceptable for the relevant park features shall be issued.

c. By December 31, 2022 and every six months thereafter, the department shall submit a report to the mayor and the council regarding park features under the jurisdiction of the department that were found to receive an unacceptable rating three or more times during a six month period, resulting from inspections conducted by the department.

d. The report required by subdivision c of this section shall include, but need not be limited to:

1. The date and location of each inspection performed by the department of a park feature of a park, playground, pool, beach or recreation center, where such park feature was issued an unacceptable rating during such inspection three or more times during a six-month period;

2. For each such park feature, a description of the condition that resulted in an unacceptable rating being issued;

3. A plan that describes the work deemed necessary by the department to be performed in order to bring such feature into a condition where it would be rated as acceptable pursuant to an inspection performed by the department; and

4. An estimate of the cost and timeframe required to complete such work.

§ 2. This local law takes effect 90 days after it becomes law.
